

Every technology dollar — visible, defensible, and **productive**.

ClearPath is an independent technology cost and sourcing advisory firm for enterprise CIOs and CISOs. We find the value hidden across cloud, SaaS, telecom, security and infrastructure spend — and we stay through execution until it is captured.

\$7M+ Client savings identified across engagements	\$2.5M Annual savings, global engineering firm	7 days To surface \$330K/yr that funded a managed SOC	\$0 Net cost of a \$600K cloud migration, fully funded

ENGAGEMENTS Three ways we work

01 · ASSESS

Clarity

Full-spend discovery, contract review and a prioritized savings roadmap — one reconciled view of every technology dollar.

02 · CAPTURE

Control

Vendor negotiation, tool rationalization and implementation support. Value is measured when it reaches the P&L.

03 · SUSTAIN

Command

Ongoing governance, board-ready reporting and continuous optimization — your outsourced technology sourcing function.

METHOD Discover → Optimize → Execute

- Discover**
Inventory spend, contracts and usage across the estate to establish a single defensible baseline.
- Optimize**
Benchmark, rationalize and renegotiate — reducing cost, risk and vendor complexity.
- Execute**
Implement alongside your team and report realized value in board-ready terms.

Scope: Cloud & IaaS · SaaS · Telecom & network · UCaaS/CCaaS ·

Security & SOC · Infrastructure

Sectors: Financial services · Healthcare · Technology · Logistics ·

Manufacturing

SELECTED OUTCOMES

Global insurance provider Contract renegotiation + credits recovered	\$824,748 / yr
Fortune 500 technology company UCaaS and network modernization	\$2.0M / yr
East Coast manufacturer Supplier consolidation, help desk	\$442,272 / yr
Healthtech company, 5,700 employees Supplier overspend → funded managed SOC	\$330,000 / yr
Pain management network Network cost down, bandwidth +395%	\$324,000 / yr

“They turned a \$600,000 cloud migration into a fully funded project — at zero net cost to our budget.”
